Peer supporters are trained by the University Counselling Service in listening and supporting other students with their problems. We can be the first person you speak to no matter the size of the problem. If you have the slightest concern or worry, even if it doesn't seem like a big problem, you can talk to us! Even if you just want to chat over a cup of tea, come and find us in college or drop us an email. Peer Support is completely confidential, so you don't need to worry about gossip or anyone finding out. To find someone more experienced in discussing LGBTQ+ matters, you can email rainbowpeers@admin.ox.ac.uk. You can also contact Peer Supporters at Wadham, our sister Peer Support college, if you fancy a chat with someone outside of Univ: peersupport@wadh.ox.ac.uk.
