Peer supporters are trained by the University Counselling Service in listening and supporting other students. We can be the first person you speak to no matter the size of the problem. For the slightest concern or worry, even if it doesn't seem like a big problem, you can talk to us! Even if you just want a chat over a cup of tea, come and find us in college or drop us an email.

Peer Support is confidential, so you don't need to worry about gossip.

To find someone experienced in LGBTQ+ matters, email rainbowpeers@admin.ox.ac.uk.

You can also contact Peer Supporters at Wadham, our sister Peer Support college for a chat with someone outside of Univ: email peersupport@wadh.ox.ac.uk.
